

June 01, 2015

**CIRCULAR**

As per a communication received from Reserve Bank of India, during migration of softex related data and launching of new site the wrong number sequencing was reset by the system, which led to duplication of Softex numbers from S15000892181 to S15001023906 generated during period April 14, 2015 to May 19, 2015.

The units are therefore required to generate new Softex Numbers for above period irrespective of Softex certified by STPI.

This is for Information and necessary compliance and to intimate the same.
